

STARS OF THE WEEK

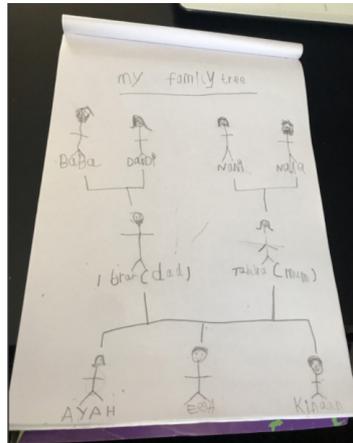

There are now 217 children signed up to the 'Fun and Fitness' classroom. This new google classroom has been created to help families stay active and relaxed, providing websites, challenges and activity programs to try and follow. Three children in particular have shared their good work showing how their families have been staying healthy. Well done to Zeina (year 3), Charley and Dhiren (both in year 2). There was also a 'design a kit' challenge that lots of children have engaged with, creating some wonderful designs.

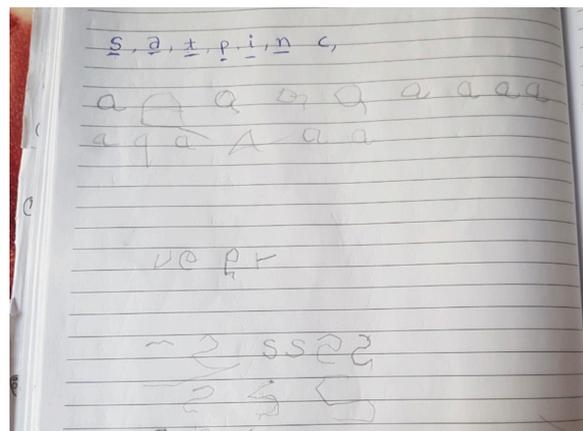

FUN and FITNESS Challenge scoreboard

Name:	Type/write in your best score on that day for the correct challenge in the table below.				
60Sec Challenge Name Click the words for instructions	Monday	Tuesday	Wednesday	Thursday	Friday
Catch and Clap	3	4		8	8
Star jumps	55	64		71	66

RB	Eesa M	Eesa is an absolute superstar for all of his hard work while at home. The picture shows a lovely family tree he has created, drawing all of his family members. Not only is he doing all of his online learning, but he has also learned to tell some very funny jokes and even how to ride his bike!

Nur	Veeral S P	Veeral has been working really hard at home and has produced an excellent piece of work. He has demonstrated that he recognises the letters taught this week and has even had a go at writing some of these letters. Great work Veeral!

STARS OF THE WEEK

Class	Name	Reason
1J	Qaim Din K	Qaim Din has been working hard on his home learning tasks. This week we have been learning about poetry. Qaim Din was able to rhyme words and even sent in a poem he had learnt in French!

1M	Alexis D	It has made me so happy to see all of the hard work that Alexis has been doing at home. She has been focusing on improving her maths, reading and even doing her own research about the solar system! Keep it up Alexis - well done!
----	----------	--

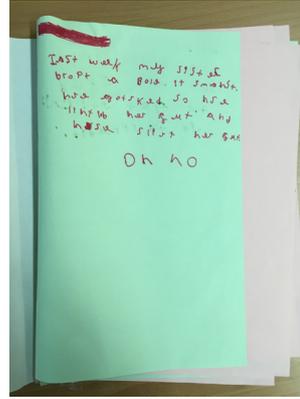

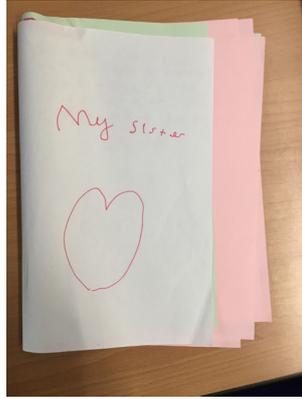

1G	Maleka E	Maleka has wowed all the Year 1 teachers this week with her amazing maths. We have just started to learn about multiplication and Maleka spotted a pattern when working out the two times table and said 'the answers are the same as doubles'. Well done Maleka!
----	----------	---

STARS OF THE WEEK

Class	Name	Reason
2T	Ellie C	Ellie has been working really hard this week. As well as completing her online google classroom work, Ellie has been independently writing her own stories to share. What a fantastic idea! Well done Ellie!

2H	Kartar S K	I am really impressed with how dedicated Kartar has been to his work on Google Classroom. This week Kartar has worked extremely hard in all lessons but has amazed me in reading! Kartar made a brilliant prediction and retrieved information from the text to answer questions in detail! Not only that, he has also been accessing Bug Club regularly! Super work Kartar! You are a star!

The Titanic

Titanic was the biggest ship of its time. It carried over 2000 passengers and crew. Its first journey was from Southampton to New York but the ship never got to America.

How Was Titanic Made?
Titanic was built in Belfast. It took three years to build and cost millions of dollars.

Titanic had four funnels. Only three of these funnels worked, the other was to make the ship look more powerful and important.

Remember to follow with your finger.

You do: How long did Titanic take to build?

Answer: It took three years to build.

If some of the words are tricky use the next slide to help you with meaning.

read

Why Didn't Titanic Reach America?

Sadly, on 15th April 1912, Titanic hit an iceberg and sank. Many people lost their lives.

There are lots of different ideas about who was to blame. Some people say the ship's captain ignored warnings about icebergs. If he had slowed down, the disaster might never have happened. Other people say the screws holding the ship together were made from poor quality iron, so the ship broke easily when the iceberg hit.

Tip: Use a conjunction

You do: How do you think the Titanic sank? Explain your answer.

Answer: I think that the ship's captain was not looking where he was going and he crashed into the iceberg.

If some of the words are tricky use the next slide to help you with meaning.

2C	Niventhan N	Niventhan has been a star from the start on Google Classroom and has worked hard every day. This week he wowed us with his fantastic maths work where he tried hard to divide using the grouping method. Well done Niventhan, I am very proud of you!
----	-------------	---

3P	Aaeid A	Aaeid has been really impressing us over the last few weeks. He is online every day, and submits his work on time. He then always reads and responds to the marking and feedback we give him. We are so pleased that Aaeid is so committed to being his best. Well done!

 jungle	A busy jungle.
 beach	A playful, fun beach.
 meadow	A yummy meadow for animals.
 town	A busy town full of busy people and workers.

L Thomas 13:02 4 May
Resolve

If his heart is thumping what does that tell you about how he was feeling?

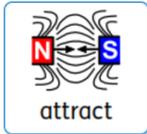

Aaeid Abid 21:39 4 May
Scared

S ODonnell 08:16 Yesterday
I agree!

3O	Mohammed Z A	Mohammed has been chosen this week for being such an active member of our online classroom. He never fails to complete his tasks, and he responds to his feedback too. Thank you, Mohammed!
----	--------------	---

Magnets that PULL

When a North pole and a South pole are close enough to each other, they ATTRACT and are instantly PULLED in towards one another. This happens with magnetic objects too.

Which of these magnets will be pulled towards the magnet? Move the circle to the correct magnet.

Q: Find and copy two phrases which tell you Leo is moving quickly.

A: sprinted
staggered

4S	Tobias T-L T	Tobias has been working incredibly hard on google classroom from the very beginning! I am super impressed with his fantastic humanities work this week, in which he wrote a postcard from Greece! He included everything from the success criteria earning 100 points- plus he added some amazing facts and a question sentence! I would love to visit there one day Tobias!

Kalamata

Sentence stems for postcards...
 To: ...
 Today I went to...
 I like...
 This is an example of a human/physical feature.
 My favourite part was...
 The climate here is...
 I sometimes like to...
 Did you know...

Key vocabulary...
 continent, country, climate, human feature, physical feature, history, culture, island, sea

Success Criteria

	SC	Me	T
Included a human feature (20 points)	20	20	
Included a physical feature (20 points)	20	20	
Described the climate/weather (20 points)	20	20	
Described where a place is using country and continent (20 points)	20	20	
Used key geography vocabulary (20 points)	20	20	
Did you get 100 points?	Yes!	Yes!	

Dear year 4
 I am writing from the **island of Kalamata** in the **Peloponnese region of Greece**. Today, I went there to admire the views and relax on the **beach**. Yesterday, I visited the **Acropolis**. It is **very hot** in the country and on the beach. **My favourite part was the view of the bay** and it was made a long time ago. Did you know that lots of the words in English came from Ancient Greek? The **word for the history of the island** is **history**. In 2018, there were more tourists that year than the population!
 Wish you were there.
 From Tobias.

4B	Jesse G	Jesse has been chosen this week for completing lots of work on the google classroom. My favourite was his science work! Well done Jesse!
----	---------	--

4M	Sjahin B	Sjahin is working super hard in the google classroom and I am so pleased. He is putting 100% effort into all of the work, and promptly responds to feedback by making corrections. Well done Sjahin - you're an online star!
----	----------	--

I think that when the lady looks at the mirror, she sees her beauty inside and it is therefore reflected on her outer appearance.

Picasso might have thought that beauty is seen differently in the eyes of different people. Some might look for beauty in appearance, and others might look at a person's personality. Picasso could have wanted to portray this in a painting.

Class	Name	Reason
5G	Robert T-M	Robert has really come into his own in our online classroom. He is so polite and always completes his work to the best of his ability (and has lots of fun doing it too) Well done!

Arithmetic Questions
Do all your working out on **paper** and put the answer in the **red box**.

1. $37 + 21 =$	<input type="text"/>	1. $61 + 18 =$	<input type="text"/>
2. $45 + 14 =$	<input type="text"/>	2. $22 + 17 =$	<input type="text"/>
3. $36 + 61 =$	<input type="text"/>	3. $43 + 53 =$	<input type="text"/>
4. $25 + 52 =$	<input type="text"/>	4. $11 + 11 =$	<input type="text"/>
5. $44 + 11 =$	<input type="text"/>	5. $55 + 22 =$	<input type="text"/>

5L	Hassan B	Hassan has engaged enthusiastically this week on Google classroom and has completed lots of fantastic work. I particularly enjoyed our discussion during the P4C enquiry.
----	----------	---

Maybe the one day they were not happy and the other day they were cheerful.

When my brother never done his work but got treated and i did to but when i did not do my work i never got treated.

When my brother makes a mess in my room he does not clean so i have to and when he does not do that he gets in trouble.

5B	Harry P	Harry has been regularly completing his work on our google classroop up to an extremely high standard, each day! You can tell he is working hard and his personality is shining through in his writing as well, which is wonderful to see. Keep working hard and Harry, I am very proud!
----	---------	--

Task Four

This time, have a go at **creating and writing a short conversation** between two people using **direct speech**. Remember that for each new speaker, you need a new line!

"How was football Harry?" Nick said
 "It was great." Harry answered.
 "Why is that?" Nick asked.
 "We won 5-0." Harry exclaimed.
 "Well done, did you score." Nick cried
 "Yes i did i scored twice." Harry said.
 "Who else scored?" Nick shouted.
 "Konrad, Dominic and Harry also scored." Harry answered.
 "Wow." Nick said.

STARS OF THE WEEK

Class	Name	Reason
6C	Hajira A	Hajira has shown such dedication and positivity in all of her online work since the start of lockdown. She asks questions when she needs clarification and always responds to feedback on her work. She has shown a real maturity over the last few weeks and all of her teachers are extremely proud of her.

Task 2 Can you write your own recount?

In our history lessons, we look at lots of first-hand recounts from people who lived through certain events to find out exactly what life was like for them. Can you create your own recount (like a diary entry) in the box below for future generations to read at the exhibition? Think about: what was it like when schools closed? What do you do at home? How do you do your school work? Have you made a rainbow? Why? Have you clapped for our carers on a Thursday? Why?

26/04/2020
Dear Diary,
I have nearly nothing to do in these temporary holidays. I am sitting on the sofa, bored and sleepy, because I don't have to follow school rules at home, leading me to not being able to finish my school work sensibly and properly.

I miss my friends and don't have contact with all of them; I can only meet some of them virtually.

I don't know why people want to be homeschooled. I would feel really lonely and uninterested in the lesson.

I do not think that in the future, anyone will have the coronavirus but if they do, they will have the cure by then.

At home, there is not much to do except for watch youtube or netflix, read a book, play games like 'bus stop' with my siblings, and play roblox.

On Thursday we clapped for the NHS to show gratitude and appreciation. I hope that scientists find the cure to covid-19 soon and everyone, suffering, can get well. I also hope that school can start again by the end of the year so I get to say goodbye to some friends and teachers due to being in year 6 and going to secondary school next year.

Hoping for the best,
Hajira

6B	Khadijah J	Khadijah has worked hard in all of her online learning but particularly in writing. She has been trying really hard to include all of the success criteria as well as challenging vocabulary and other skills she has learned this year. All of us have been so impressed with the work she has produced and we are extremely proud of her. Well done Khadijah - the only thing we would like better is to be able to see your face as well!
----	------------	--

Once Shaun took a step of the bus and landed onto the pavement of the beach, he immediately started to bend down and scan the ground looking for bottle tops so he can complete his bottle top collection. When he found a few and sorted them into their correct colours, he started to head towards the stairs. With the straps of his backpack gripping onto his shoulders, he landed onto the sandy surface of the beach. There he found bottle tops all shapes and sizes. Like a vacuum cleaner, he sucked all the bottle tops and carefully placed them inside his backpack.

When Shaun collected all the bottle tops on the beach, he saw a peculiar figure. With suspicion, Shaun circled round the thing. Then he looked around to see if this belonged to anyone. In front of him, there was a thing that was a crimson colour and had 6 legs sprouting from beneath, which makes him able to stand. Also poking out of it was 2 crab-like arms with a red bell on either one, a few centimeters below the top, there was an old fan. Walking towards it, Shaun lifted up a flap and exclaimed "Hello!" All of a sudden, the thing moved. It slowly opened up the flap. And threw a ball in front of Shaun. Just then, he realised that the thing was not harmful. It just wanted to play. Just then, Shaun discovered that it was a lost thing.

Wednesday
29th April

LO - To use different sentence openers

- some of (20) (10)
- with (20) (10)
- went (20) (10)
- prep. phrase (20) (10)
- challenge - excellent vocabulary (20)

6S	Sana A	Sana works so so hard. She does all of her work and never gives up on making it the best it can possibly be. We have all noticed how amazing she is and are incredibly proud of her. Really really well done Sana!
----	--------	--

You do

When I compare the Egyptian lamp with the modern lamp I can see that the Egyptian lamp is made out of rock. In the Egyptian times they had to do lots of things to turn it on.

But with the modern lights we don't need to do anything hard like that to turn it on. And it is more easier.
