Class	Name	Reason
RF	Rowan S	Rowan has been consistently working super hard on his online learning. He has tackled every task with great enthusiasm, creativity and determination. His literacy work and numeracy work have been outstanding - your work inspires me! Congratulations!

RL	Neave S	Neave is an absolute superstar. She has tackled all of her online learning confidently and always produces great work on her journal for her teachers to see. Neave has also been experimenting with the snow. She made ice marbles with balloons and food colouring and then enjoyed playing in the garden with them. Neave has also made snow volcanoes, using food colouring and vinegar. She had great fun mixing everything together and seeing what happened next! Well done Neave, we are so proud of you.
----	---------	---

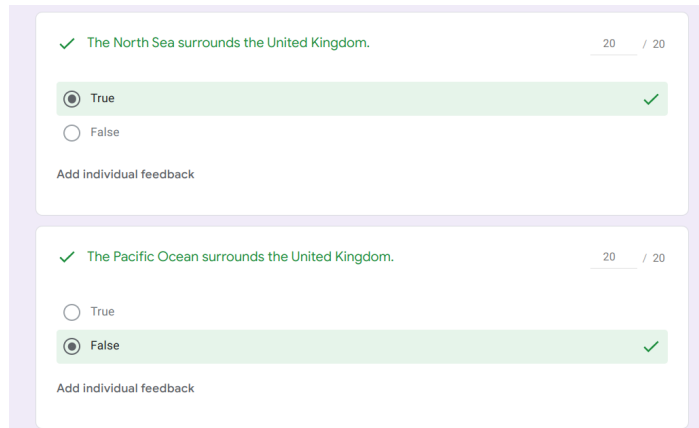

RM	Zafar J	Zafar has been working exceptionally hard this week with his home learning. It has been lovely to see him on our Class Meets and we have all enjoyed listening and learning about his science experiments. Zafar has completed a few experiments over the past week and was able to give sensible predictions about what he thinks will happen and could talk about his observations in great detail. I particularly enjoyed reading about his M&M experiment where he combined counting, addition and subtraction! Keep it up!

Class	Name	Reason
1J	Aarohi P	Aarohi tries really hard with all her google classroom lessons and is very engaged. She ensures she reads the questions carefully on the google quizzes enabling her to give the correct answers. She also joins in on 1J's Google Class Meet. She is very willing to share her thoughts and ideas with her peers.

1M	Rosie-May B	All of the teachers who have marked Rosie's work have commented that she always tries her best and is usually one of the first to complete her work on google classroom. She impressed us with her cutting skills on an extra lunch making challenge! It is lovely to also see Rosie daily on 1M's Google Class Meet.
----	-------------	---

1P	Maharudra Singh R	Mahi is very dedicated to his online learning. He works hard to complete all the tasks set for him. Mahi also seeks additional work to complete most days. This week he has impressed us with his mathematical reasoning. Keep it up, Mahi!

Class	Name	Reason
2C	Isa B	This week Isa has stood out on our Google Classroom for all of his hard work and the excellent effort that he puts into his lessons. Have a look at some of his amazing maths work! He also joins our Class Meets every day and is full of enthusiasm! Keep working hard, Isa!

### Challenge Time!

Miss Hall is solving some multiplication number sentences. She makes this array. What could her number sentence be?

3 times  
4=12

Mr Buswell is thinking of a number. If he multiplies the number by 2 the answer is 12. If he divides the number by 2 the answer is 3. What is his number?

6

2H	Maleka E	Maleka is a superstar! She was doing all her google classroom work by hand at the beginning and sharing photos with us. Now she completes all of her home learning pack AND comes online to do extra maths on google classroom and the google meets. She always says hello to us all too. She takes her work seriously and that is why she is a super learner! Keep it up, Maleka!
----	----------	--

### Reasoning Challenge

5 x 2 and 20 ÷ 2 have the same answer.

Is Amir right or wrong? How do you know?

Amir is right because ...  $5 \times 2 = 10$  and  $20/2 = 10$  ..YESSS... both have the same answer.

Amir is wrong because ...

### Challenge Time!

Miss Hall is solving some multiplication number sentences. She makes this array. What could her number sentence be?

$4 \times 3 = 12$   
or  
 $3 \times 4 = 12$

Mr Buswell is thinking of a number. If he multiplies the number by 2 the answer is 12. If he divides the number by 2 the answer is 3. What is his number? 6

$6 \times 2 = 12$   
 $6/2 = 3$

2T	Viraj S	Viraj is our online star of the week for his application to his work. Viraj is relatively new to Billesley, but he has settled in amazingly well. He works hard every day on Google Classroom and puts a lot of effort into everything he does. Viraj, you are applying lots of new skills into your learning online. All of your teachers are impressed with your work. Well done! Keep it up!
----	---------	---

### Challenge!

Tommy says that when he adds two odd numbers together, his total will be even.

Is he correct? Convince me.

I think he is correct because....we add  $5+5$  the answer is 10.10 is even number.

I think he is wrong because....

# STARS OF THE WEEK

Class	Name	Reason
3C	Hira R	Hira has been a real superstar this week on our Google Classroom. Mr Mountford was very impressed by her throwing and catching technique! She was also one of the few people who managed to label where seeds come from correctly in science. We can see that you are working hard every single day, Hira. What a great example you are!

The seeds from a plant come from the flower. They are then planted in the ground so that a new plant can grow.

Drag the arrows to **two places** where the seeds might be found.

3M	Elena P	Just like in the physical classroom, Elena is a pleasure to have in the Google Classroom! She works hard every day and we love having her on the 3M Google Meet each day. She planned and wrote a lovely report about Magical Plant Land this week. We are very proud of all your hardwork, Elena!
----	---------	--

**Animals**

In the magical Plant Land there are animals in the lake and some smooth purple fishes. On the trees there are some dark green, soft snakes. The animals eat the fallen leaves of the trees because when the leaves fall of the tree they become prickly.

3O	Isaac P	Isaac has been chosen as our star this week because of his continuous committment to completing all of his home learning tasks every single day. I know that this isn't always easy, Isaac, and your dedication is much appreciated by us all. It has also been lovely to see Isaac every day on our Class Meets!
----	---------	---

Click on: [Welcome](#) [Actuals](#) [Learn](#) [Gridport](#) [Practice](#) [Reflect](#) [Review](#)

Let's have a go!

Drag circles around...

Salar De Uyuni (these are the salt flats)

La Paz- capital city

Lake Titicaca- largest lake in South America

Sucre- another busy city

Fill in the missing words to explain what you have read:

This man can twist and spin up in the air. He can swing around a bar.

Then he can flip to the floor. He can spin and flip like this without hurting himself.

The man can  to the floor.

The man can  and  in the air.

The man can  around a bar.

# STARS OF THE WEEK

Class	Name	Reason
4B	Eden H	Eden has been a star since online learning began, always completing all her work and trying her best. She even asks her big brothers for help when she gets stuck! Well done, Eden!

- 1)  $6 \times 2 \times 4 =$   ✓
- 2)  $8 \times 3 \times 5 =$   ✓
- 3)  $5 \times 3 \times 10 =$   ✓
- 4)  $3 \times 5 \times 5 =$   ✓
- 5)  $7 \times 2 \times 14 =$   ✓
- 6)  $8 \times 3 \times 12 =$   ✓

4L	Muneeb H	What an outstanding attitude Muneeb has to his online learning. He always completes all of the work that he is set to an amazingly high standard which makes all of the teachers extremely proud. Muneeb also turns up everyday to our class meet and is able to put a smile on the face of everybody else in the class. I look forward to seeing what else you do in our online classroom.
----	----------	---

One rainy day a witch walked out of her gloomy house to pick some apples to make apple pie just for her. A few moments later she arrived at the apple tree but she saw someone coming and they had saw the witch then she grabbed her wand and turned him into a chameleon. Finally she picked some apples and went home to make apple pie. After she ate the pie she made a few spells and went to bed.

The end

Your turn... write your character description about personality.

4J	Samreen R	Samreen has been completely dedicated to completing all of her work on google classroom. Not only does she complete it, but she waits for her feedback and makes any corrections that her teachers give. Samreen gives all of her teachers a smile when submitting her work. We are proud of you, Samreen. Keep it up!
----	-----------	--

The young, content witch was hilarious and thoughtful. She loved to entertain kids and see their reactions. The witch looked creepy, but actually she was a clever clogs and was always cheerful. Her eyes always glowed in excitement and her dark, hooded cloak was flowed in the strong winds. What a joyful witch she was !

Your turn... write your character description about personality.

# STARS OF THE WEEK

Class	Name	Reason
5M	Sarah B	Sarah works so hard on all of her work, and I am particularly impressed with her knowledge of shapes this week. She has also shared her incredible paintings that she does at home. You are a star, Sarah!

Shape	Name	Number of faces	Number of edges	Number of vertices
	cuboid	6	12	8 ✓
	sphere	1	0	0 ✓
	cone	2	1	1 ✓
	Square-based pyramid	5	8	5 ✓

5C	Tariq A	Tariq is working so hard in the google classroom and is producing excellent work. Keep it up Tariq.
----	---------	---

The Sun, Earth and moon are related because they are all in the solar system and they are all celestial bodies. And the moon orbits the Earth which orbits the Sun

5S	Fayza J	Fayza works really hard on her Google Classroom assignments. She has produced some lovely pieces of writing. She has also attended every Google Meet with her class. Well done Fayza - keep up this really positive attitude.
----	---------	---

## Write YOU DO

One day i was playing roblox with my friends on call,suddenly my call with my friends ended and my whole house had changed.I was shocked not knowing that i had accidentally travelled only by pressing the spacebar on my computer.

I quickly ran outside and looked through the window,no one was wearing masks and werent social distancing.I darted to my mum and asked, "Mum why arent anyone wearing masks or social distancing, arent we in a pandemic? My mum thought i had gone crazy, but after a while i realised I had accidentally time travelled to 2017! I was quite happy because I could go outside and see my friends now.

## Write YOU DO

I could freely go to my friends house and anywhere! I was so so happy and I didnt have to live in fear again, but some side of me wanted to go back to 2021,but I didnt try to because I hadnt even gone outside yet! So I went and asked my mom if I could go to my friends house, she said yes so i told my friend i was coming round and got ready. I was so exited because I hadnt seen my friend in so so long!

I arrived at their house and that was so exiting! We watched movies together and played roblox like we used to do together when Covid wasnt such a thing. I really wanted to have a sleepover and my mum said yes!! I was so exited,we would watch more movies in the night, play games in real life and play roblox together even more! This was the best day ever!

# STARS OF THE WEEK

Class	Name	Reason
6B	Andreas D	What a complete star Andreas has been this week with his work! He always tries his absolute best and never gives up! He will check through his mistakes and take onboard comments left by the teachers to improve his work even further. I am so pleased with his effort - keep it up, Andreas.

**Task 2**

Watch the video and then write 3 facts that you have learned about invertebrates.

**Write 3 facts about invertebrates**

1. Some can be small or big
2. They have no backbone
3. Over 96% of the world is invertebrates

6HB	Ana C	Ana always puts 100% effort into everything that she does, in school and especially on google classroom. She helps others, participates daily in our class meets and is a shining star in 6H with her superb work. Ana has especially impressed me with her writing this week - keep up the fabulous work, Ana!
-----	-------	---

**You Do**  
Have a go at your own paragraph.

I can write in sentences that make sense using capital letters and full stops.

I can punctuate speech correctly.

I can use a range of appropriate dialogue tags.

I can include action and detail.

**'said' is dead**

complained	cried
screamed	whispered
spoke	shouted
hissed	grinned
howled	sneezed
cried	whistled
whined	called
peeped	laughed
shouted	announced
whispered	exclaimed
exclaimed	thought
apologised	expressed
observed	instructed

Emily slowly walked out onto her thin balcony and sat down on a small chair. She **pat** her lap and shouted, "Taffy!" Suddenly her dog came **running towards her and she leaped onto Emily's lap**. As she started to stroke her she whispered, "Oh taffy," she **sighed**, "why can't anything exciting ever happen to us?" she **smiled weakly** at her dog. **Lifting her head up slowly, she rubbed her eyes in disbelief**. "Woah!" she exclaimed, "what is that?" **The floating creature made eye contact with her and drifted towards her**. Slowly arriving at her house, the creature rumbled, "Why hello little girl," he smiled. "Wow!" her eyes widened, "what are you?" **"I'm a whale of course," the whale chuckled, "but not any ordinary whale."** Emily stared into the whale's **astoundingly bright eyes**. For a few moments. Interrupting the **silents** the whale said "well, why don't you hop on!" he smiled. So she and her dog climbed onto the huge whale and they set off over the buildings.

6S	Savannah C	Savannah has shone on the google classroom this week for many reasons. One in particular was her reading. You could tell how hard she had worked on it and the time and effort she had put into her answers - using all the skills that we had been practising over the week successfully! Keep up the great work, Savannah, as we are all so proud!
----	------------	--

The class everyone had really been looking forward to was Defence Against the Dark Arts, but Quirrell's lessons turned out to be a bit of a joke. His classroom smelled strongly of garlic, which everyone said was to ward off a vampire he'd met in Romania and was afraid would be coming back to get him one of these days. His turban, he told them, had been given to him by an African prince as a thank-you for getting rid of a troublesome zombie, but they weren't sure they believed this story. For one thing, when Seamus Finnigan asked eagerly to hear how Quirrell had fought off the zombie, Quirrell went pink and started talking about the weather; for another, they had noticed that a funny smell hung around the turban, and the Weasley twins insisted that it was stuffed full of garlic as well, so that Quirrell was protected wherever he went.

Harry was very relieved to find out that he wasn't miles behind everyone else. Lots of people had come from Muggle families and, like him, hadn't had any idea that they were witches and wizards. There was so much to learn that even people like Ron didn't have much of a head start.

How do you think Harry feels about Professor Quirrell?  
Use the text to support your answer.

**Unpleasant because the other lessons they learnt something from but quirels class was a bit of a joke.**

Find and copy a phrase that shows that the students were not impressed by the lesson?

**But quirels lessons turned out as a joke**

What 2 adjectives could you use to describe Professor Quirrell?

**Silly/suspicious because he is making the lessons silly by talking about weird stuff and then he blew semus's question off and was acting weird.**

Find and copy a word that shows how harry felt after his first few lessons?

**Relieved**

# STARS OF THE WEEK

Class	Name	Reason
RB	Haris B	Haris has been an absolute superstar in home learning. He has completed every assignment for the past week and has logged on to each Class Meet. It is a pleasure to see him chat with his friends on our video lessons and to see the amazing work he is creating for our writing unit on instructions. Keep up the fabulous work, Haris!
