

## Homework

Homework is an important part of school life, helping children to achieve their potential and develop positive learning habits. Please support your children to complete their homework every week. If you have any questions please contact your child's class teacher.

### Reading

We aim to *inspire* our children to read every day because of the phenomenal impact it will have on their lives and the wonderful things it will help them *achieve*.

#### EYFS, Key Stage 1 and Key Stage 2

- Encourage your child to read regularly at least 10 minutes everyday
- Read with your child and share some quality time together talking about books
- Support your child to access [Bug Club](#) to read, earn points and play games in a safe and secure online environment

### Spelling and Handwriting

Our aim is that all our children take immense pride in the presentation and quality of their written work; that through our combined, high expectations, they are *inspired to create* masterpieces and *achieve* their highest potentials.

#### EYFS

- Support your child each week to learn their half termly high frequency words
- Encourage your child to write their high frequency words in beautiful cursive script
- Learn their weekly phoneme

#### Key Stage 1 & Key Stage 2

- Support your child each week to learn their spellings using their homework sheet and [Spelling Shed](#)
- Spelling tests are on Fridays
- Encourage your child to logon to [Letter Join](#) to practice their cursive script handwriting. All children from Year 3 onwards should be writing in cursive script

### Maths

We aim to *inspire* children to foster a passion for Maths in a way that is both challenging and supportive.

#### EYFS

- Encourage your child to count everyday objects
- Help your child to recognise numbers in their environment for eg, house numbers, road signs, buses etc
- Talk about different shapes in the environment
- Support your child to access Mathletics where their teacher will have set them activities to complete each week.

#### Key Stage 1 & Key Stage 2

- Support and encourage your child to complete their homework on [Mathletics](#) and any activities they bring home
- Involve Maths in their everyday life by asking questions for eg, 'Who has got the most?' 'What if I take 2 of them?'
- Help your child to quickly recall all of the addition and subtraction facts for all numbers up to 20
- Support your child to access [TTRockstars](#) to practise their times tables on a daily basis
